**Virtual author visit with local author Jenny Mouse:**

Grades K - 3

Tuesday, October 19

Session 1: 9:30 am

Session 2: 10:30 am

#### *Author bio:*

Jenny Mouse is a local mom and author. She wrote her book after finding that the resources to help children learn about their brain were limited. Her book, *Brian the Brain Head Space*, teaches children how their brain works so that they can understand their most important tool. Understanding the brain can help children understand and value mental health, help give them tools for learning, and help them to never give up.

Jenny had a hard time completing school work when she was young. When she started University she took her first psychology class and completely changed the way she was studying. It made a huge difference, and she was able to get better grades while studying less. She's hoping that her book will have an impact on the next generation, helping them learn how to learn.
